

Description

ATTEN ST-80 80W Soldering Station is an intelligent digital soldering station with 80 W heating element for temperatures from 150 - 450 °C. Its light handle is suitable for long-time operations and the stabilized and accurate temperature supports smooth operation.

Voltage: AC (100V/110V/120V 220V/ 230V/240V) 50/60Hz(Optional)	Main Unit: 1 Unit	Inner box: 31.5x27x15.2(cm)
Power : 80W	Handle set : 1 PCS	N.W.: 2.09kg
Heater voltage : 26VAC	Iron stand: 1 PCS	G.W.: 2.32kg
Temperature range : 150~450°C	AC cord: 1 PCS	Carton: 6 PCS/Carton
Temperature offset range : ±50°C	Manual: 1 Copy	Size: 55.5x33x48(cm)
Temperature stability : ±2°C (in still air, no load)	Cleaning sponge: 1 PCS	N.W: 14.4kg
Temperature adjustment : 5 digits (Default)/1 digit (Fine-tuning)		G.W: 15.4kg
Automatic stand-by time : 1-120 minutes (Adjustable)		
Automatic shutdown time : 1-120 minutes (Adjustable)		
Heater : 60W High performance dual-core ceramic heater		
Tip-to-ground impedance : < 2Ω		
Tip-to-ground voltage : < 2mV		
Previous product : no
